

Technical specs

GILP2 - GILP2

Name:

POLYESTER HIGH VISIBILITY VEST - PARALLEL ASSEMBLY

Size:

L - XXL

Colour:

Fluorescent Orange-coloured - Fluorescent Yellow

Description :

High visibility vest. Fastening with velcro band. High visibility : Class 2 - Silver colour - Parallel assembly.

Materials:

Shell : 100% Polyester.
Retro-reflective sewn bands. (30 washings max at 30°C).

Instructions for use:

High visibility warning clothing which enables the wearer to be seen as clearly in the daytime as outside at night time by the headlights.

Limits to use:

Do not use outside of its field of use as defined in the instructions for use above. Before putting on this item of clothing, check that it is not dirty or worn; this will reduce its effectiveness. Ensure that the grey retro-reflective band is placed on the outside of the item of clothing. It must not bear any agent which could reduce its visible surface. This article of clothing does not contain any substance known to be carcinogenic, toxic, or likely to cause allergies in sensitive people. If the protective material is damaged dispose of the item of clothing.

Instructions for storage:

Keep in its original packing away from light and humidity.

Instructions for cleaning / maintenance:

Wash inside out, dry straight away after washing. Maximum temperature 30°C (numbers authorized maximum washing: 30), mechanical action reduced, rinsing at gradually decreasing temperature (cool down), spinning reduced. Do not use chlorine-based bleach. Iron at a maximum sole-plate temperature of 110°C, Steam-ironing may be risky. Do not dry-clean, no stain removal with solvents. Do not tumble dry. Do not use high alkaline stain remover, neither detergents with solvents or microemulsions, or bleaching agents.

Performances :

This signalling vest complies with the European directive 89/686, notably regarding ergonomics, innocuousness, comfort, ventilation and flexibility, with EN340:2003, EN471:2003 /A1:2007 (2, 2) high-visibility warning clothing for professional use.

- **EN471:2003 /A1:2007** High-visibility warning clothing for professional use - Test methods and requirements

- 2 : Garment class (1 to 3)
- 2 : Level of retroreflective material performance (1 to 2)
